Dear Mr. President;

On behalf of Malmö Astronomi- & Rymdfartssällskap (Malmö Astronomy & Spaceflight Society) we herewith would like to announce our interest in arranging a meeting with the Apollo 11 astronauts when they eventually visit Malmö and the Gumaelius meeting the first days of November this year.

The meeting is planned as a combination of a filmshow on the Apollo 11 flight and personal accounts of one or more of the astronauts and, further, will be arranged as a cooperative enterprise between Malmö Astronomi- & Rymdfartssällskap and astronomers of Lund University.

M.A.R.S. is a society mainly containing young people dedicated to the study and further knowledge of astronomy. We are one of the most active amateur astronomy societies in Scandinavia. Certainly, we have followed the historical lunar flight with great interest and, of course, we will be honoured to arrange a one or a few hours meeting as suggested above.

Yours faithfully
